

TTM Technologies, Inc. to Exhibit at the EV Tech Expo in Novi, Michigan

August 8, 2016

COSTA MESA, Calif., Aug. 08, 2016 (GLOBE NEWSWIRE) -- TTM Technologies, Inc. (Nasdaq:TTMI), a global leader in printed circuit board (PCB) manufacturing, is thrilled to showcase its PCB and Electronic Manufacturing Solutions to electric and hybrid automotive suppliers and OEMs at the EV Tech Expo in Novi, Michigan in September, 2016. Currently, TTM serves a number of tier one suppliers and automotive manufacturers with high reliability solutions, from prototype to high volume production, supported by a global network of experienced engineers. Situated at booth 1129, TTM will have on-site representation from automotive sales, field application engineers, and process engineers from the Automotive, Medical, Industrial & Instrumentation (AMI&I) Business Unit throughout the event. The EV Tech Expo runs from September 13th to 15th at the Suburban Collection Showplace in Novi, Michigan. Customers and suppliers are encouraged to visit the booth for a chance to win exciting prizes and meet key members of the AMI&I team.

"Automotive is an exciting area for electronics right now; the PCB content in new vehicles is increasing and TTM Technologies is uniquely positioned to serve suppliers and OEMs in the electric vehicle and hybrid marketplace; we have the experience and proven track record to successfully meet the needs of this expanding area of the automotive industry. The Automotive, Medical, Industrial and Instrumentation business unit is fully invested and committed to the needs of our automotive customers now and in the future—whatever exciting new direction that may take them and us. The EV Tech Expo is a wonderful opportunity for our team to meet some new faces and reconnect with existing customers and learn more about emerging electronic needs of EV and hybrid suppliers and OEMs." –Jon Pereira, TTM's President of Automotive, Medical and Industrial & Instrumentation Business Unit.

About the EV Tech Expo

Electric & Hybrid Vehicle Technology Expo is the premier showcase for electric and hybrid vehicle technology and innovation. The show is a manufacturing and engineering event, and will be attended by leading automotive and off-highway vehicle engineers, business leaders, technical experts, consultants and R&D professionals. www.evtechexpo.com

About TTM Technologies, Inc.

TTM Technologies, Inc. is a leading global printed circuit board ("PCB") manufacturer, focusing on quick-turn and technologically advanced PCBs, backplane assemblies and electro-mechanical solutions. TTM stands for time-to-market, representing how TTM's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market.
