

TTM Technologies to Exhibit at the Electric & Hybrid Vehicle Technology Expo in Sindelfingen, Germany

March 1, 2017

COSTA MESA, Calif., March 01, 2017 (GLOBE NEWSWIRE) -- TTM Technologies, Inc. (Nasdaq:TTMI) will be exhibiting at the Electric & Hybrid Vehicle Technology Expo Europe 2017 at Booth B205. The expo runs from April 4-6 and will be held in the backyard of many world-class automotive companies at Sindelfingen, Germany. Technical experts will be available at the booth to answer printed circuit board design, manufacturing, and assembly-related questions. The following samples of key TTM PCB technologies for automotive will also be displayed at the booth:

- High Reliability Applications
- Heavy-copper products up to 12 oz. (400 µm)
- Heat sinks (aluminum & copper) and thermal management solutions (TMS)
- RF/high-performance materials / Radar Applications / ADAS
- High volume HDI capability for advanced automotive applications
- Controlled Impedance Applications
- Rigid-Flex and Semi-Flex

"The Electric & Hybrid Vehicle Technology Expo Europe is a premier event which provides a great opportunity for TTM to showcase our capabilities in manufacturing Automotive PCBs. We understand the importance of quality and reliability and are looking forward to introducing our ONE TTM Solution with ISO/TS16949 certified manufacturing facilities in China and North America to support this end market," said Jon Pereira, TTM's President of The Automotive, Medical and Industrial & Instrumentation Business Unit.

About the Electric & Hybrid Technology Expo Europe

Electric & Hybrid Vehicle Technology Expo Europe is the leading trade fair for electric, hybrid and plugin hybrid vehicle technology, taking place 4-6 April 2017 in Sindelfingen, Stuttgart, Baden-Württemberg, Germany. The free-to-attend exhibition is a showcase of manufacturing and supply chain solutions for passenger, commercial and industrial vehicles, including electrical powertrains and components, battery management systems, materials and equipment. www.evtechexpo.eu

About TTM

TTM Technologies, Inc. is a leading global printed circuit board (PCB) manufacturer, focusing on quick-turn and volume production of technologically advanced PCBs, backplane assemblies and electro-mechanical solutions. TTM stands for time-to-market, representing how TTM's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market. Additional information can be found at www.ttm.com.
