

[TTM TECHNOLOGIES, INC. EMPLOYEE ANNOUNCEMENT LETTER — NOVEMBER 16, 2009]

Date November 16, 2009

To All TTM Employees

Subject Business Combination between TTM and Meadville Group PCB

Today, TTM Technologies, Inc. announced a definitive agreement that will result in the business combination of TTM and the printed circuit board business of Meadville, creating one of the leading printed circuit board companies in the world.

The Meadville Group is headquartered in Hong Kong and operates seven facilities in mainland China and one in Hong Kong. They are one of the leading PCB manufacturers in China with 2008 sales of US \$669 million. Meadville focuses on higher technology PCBs and chip carrier substrates. Additional information can be found at www.meadvillegroup.com.

This announcement is the result of a long and thorough investigation to identify potential companies that would position TTM to service customers on a global basis. Our constant objective has been to find a global partner that would enhance TTM's commercial offering with high volume production and complimentary technologies.

We are very excited about the combination of TTM and Meadville. This transaction provides the ideal expansion of TTM's model into Asia. The joining of our two companies will make us both stronger by creating one of the best global one-stop solution for printed circuit board products and backplane assemblies.

The combination will create significant competitive advantages for both companies. As one company, we will have a more diversified customer base with little overlap, broader end-market exposure, and expanded capabilities to service our customers on a global basis. Together, the new company will be the third largest printed board company in the world with combined 2008 sales of \$1.35 billion.

The transaction is expected to close in the first quarter of 2010. Until that time, we are not allowed to jointly engage customers or have joint communications of any kind. We will keep you updated on significant developments during this transition period.

As always we appreciate your continued dedication to TTM.

Kent Alder
President & CEO
TTM Technologies, Inc.
