

TTM technologies, inc. receives world class supplier achievement award from spanson, inc.

July 10, 2014 3:33 PM ET

for immediate release

COSTA MESA - JULY 10, 2014 - TTM Technologies, Inc. (Nasdaq: TTMI), a major global printed circuit board (PCB) manufacturer, today announced that its manufacturing facility located in Shanghai, China (SMST) received a World Class Supplier award from Spansion Inc. for achieving zero defects in substrate products.

Spansion honors its suppliers for their commitment and outstanding service through its World Class Supplier award program.

"I am impressed to see SMST shipping zero defect, quality products to Spansion and hope that this will continue into the future," said Gene Daszko, Vice President of Quality at Spansion Inc.

"We would like to thank Spansion for this award and recognition. We appreciate our business relationship with Spansion and we are dedicated to continuing to deliver top quality products," said Canice Chung, President of TTM's Asia Pacific Business Unit. "This recognition validates our commitment to quality and customer service."

Safe Harbor Statement

This release contains forward-looking statements that relate to future events or performance. These statements reflect the company's current expectations, and the company does not undertake to update or revise these forward-looking statements, even if experience or future changes make it clear that any projected results expressed or implied in this or other company statements will not be realized. Furthermore, readers are cautioned that these statements involve risks and uncertainties, many of which are beyond the company's control, which could cause actual results to differ materially from the forward-looking statements. These risks and uncertainties include, but are not limited to, the company's dependence upon the electronics industry, the impact of the current economic crisis, the company's dependence upon a small number of customers, the unpredictability of and potential fluctuation in future revenues and operating results, increased competition from low-cost foreign manufacturers and other "Risk Factors" set forth in the company's most recent SEC filings.

About TTM Technologies, Inc.

TTM Technologies, Inc. is a major global printed circuit board manufacturer, focusing on quick-turn and technologically advanced PCBs and the backplane and sub-system assembly business. TTM stands for time-to-market, representing how the company's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market. Additional information can be found at www.ttmtech.com.

SMST-SP, a member of TTM Technologies, Inc. under the Asia Pacific Business Unit was established in 2002 to focus on the advanced technology IC substrate market including CSP, BOC, SIP, and RF and memory modules. SMST-SP is located in Shanghai with about 900 employees.
